SUMMARY

Offering strong analytical skills and a creative mindset to bring innovative game and simulation concepts to life in a collaborative environment. I bring developed and ever developing knowledge in game development and programming with core skills such as C#, C++ and Unity, coupled with the ability to quickly learn and apply new technologies.

SKILLS

- C#, JavaScript, C++, SQL
- Visual studio, Visual studio code, VIM
- Windows, Linux
- Monogame, Unity, Unreal Engine
- Git / GitHub, Axure RP, ArcGIS
- Agile SCRUM, Waterfall, and Kanban Workflows, Teamwork, Team Leadership
- Game design, UI/UX

EDUCATION

DON BOSCO PREP HIGH SCHOOL

2019 - 2023 GPA: 4.0

ROCHESTER INSTITUTE OF TECHNOLOGY ROCHESTER, NY

Master of Game Design and Development

Expected grad: May 2027 GPA: 3.4

Relevant coursework: Problem solving with data structures and algorithms, 3D Animation and Asset production, Data structures in C, C#, and C++, UI and UX, team leadership, AI for games, ArcGIS and mapping

OBJECTIVE

Currently seeking to use and grow my game development, programming, and problem solving skills in a Summer 2026 internship.

FEATURED PROJECT

Real traffic data visualizer | Academic research project

- Developed an accurate simulation in Unity using the ArcGIS Maps SDK and Esri datasets
- The simulation uses pre-simulation as well as real time data processing to optimize and show an accurate depiction of traffic congestion throughout the city of New York.

WORKING EXPERIENCE

LEAD REMOTE GAME DEVELOPER

Nicky Nice Games (Inde studio) | May 2025 - August 2025

- In collaboration with the management of Nicky Nice Games I worked on the RIT themed racing game, Gizmo Go-Kartz. In my role as Lead Remote Game Developer I was in charge of writing code to connect to our backend API, the integration of assets, writing game managers, and managing the flow of code into our team Git repository. Additionally, I would perform code reviews to ensure code quality and, both avoid and solve merge conflicts.

OTHER EXPERIENCE

Producer for class proj | August 2025 - December 2025

- Led a small team in developing a simple mystery game for a term-long class project
- Responsible for contributing code and managing my team
- Assigned tasks, ensured good communication, held team meetings and sprint retrospectives and enforce production deadlines
